Decision Intelligence Day

Decision Intelligence is only as powerful as the people using it. Because of that, Pyramid Analytics made a commitment to helping our customers get the most value from their investment. We've got new ideas, exciting solutions, and useful resources to help you elevate your decision-making.

We are offering a new service personalized for your company. Decision Intelligence Day is a full-day session where your organization can learn about the state of Decision Intelligence and see a demo of Pyramid's Product Roadmap & offerings. You can present use cases and participate in Breakout sessions specific to your needs.

How it works:

1

Collaborate with us to find a mutually convenient date to schedule a session (this can be virtual or in-person at your location)

2

We will work with you to create an agenda specific to you

3

Invitations will be sent out to your organization

4

Co-host session, enable your community and discuss the benefits of Pyramid's Decision Intelligence Platform

We are confident that once we complete this session, your employees will have learned the Pyramid platform, understand the value of using it, and benefit from executing their use case.
