

# Use Case Days

Decision Intelligence is only as powerful as the people using it. Because of that, Pyramid Analytics made a commitment to helping our customers get the most value from their investment. We've got new ideas, exciting solutions, and useful resources to help you elevate your decision-making.

**We are offering a new service personalized for your company. Use Case Days can help your organization extend the power and value of its investment in our platform by inviting others to hear your use cases and the value you have experienced internally.**

Let's get started:

1

Contact your Customer Success Manager

2

Collaborate with us to find a mutually convenient date

3

We will assist in extending an invitation to those inside & outside your group who would find value in Pyramid.

4

Your CSM will support you in preparing for the session

5

We will be on hand during the session, and provide a form for you to collect other use cases for follow-up by your CSM

We are confident that once your organization hears how you have found value with Pyramid internally, they will have a greater awareness of Pyramid and the value our platform can achieve for their use cases and your organization.

**For more information, please contact your Customer Success Manager.**
