

# Executive Peer Conversation

Decision Intelligence is only as powerful as the people using it. Because of that, Pyramid Analytics made a commitment to helping our customers get the most value from their investment. We've got new ideas, exciting solutions, and useful resources to help you elevate your decision-making.

We are offering a new service for you and your executives. With our **Executive Peer Conversation** program, we will connect your executives with executives from other Pyramid customers to network and share experiences with the Pyramid Decision Intelligence Platform.

To get started:

1

Contact your Customer Success Manager

2

We organize a brainstorming session where we discuss specific use cases that you would like to implement

3

Your CSM will work with you to identify which company executives would most benefit from a peer-to-peer conversation

4

We match your executives with executives from those companies that have successfully navigated these use cases

5

We will support you in briefing your executive prior to the conversation

6

And be available to support any follow-up from the conversation

We are confident that once your executive speaks with a Pyramid customer peer and shares use cases, they will find value not only in this new connection but also in the success others are realizing with their Pyramid investment.

For more information, please contact your Customer Success Manager.
