

# Customer Intranet Site

Decision Intelligence is only as powerful as the people using it. Because of that, Pyramid Analytics made a commitment to helping our customers get the most value from their investment. We've got new ideas, exciting solutions, and useful resources to help you elevate your decision-making.

We are offering a new service for you and your employees. Our Customer Intranet Site program is designed to generate more value and self-service for end-users. It works by having our Customer Success team partner with your organization to build out a Pyramid-specific site where your end-users can access everything they need from training & blogs to licensing & support. Direct access to the Pyramid Community and the Learning Hub will also be available.

## How it works:

We are confident that once we team up, we can help you be even more productive by providing a Pyramid-specific site where end-users can access everything they need at their fingertips.
