**pyramid**

Pyramid User Community

The Pyramid User Community offers a broad set of features to learn, share and interact with peers from all over the globe. Access our Technical Knowledge Base, and learn more about new features and product updates. Check the Tips & Tricks and Best Practices shared. Or simply ask for help from thousands of peers to advance your current project. It's easy to join and participate.

How it works:

1

Join the Pyramid Community at:
community.pyramidanalytics.com

2

Browse the Knowledge Base
and Learning Content

3

Ask questions and
share your ideas

4

Help others answer
their questions

5

Take part in challenges
and contests

6

Meet Others in User groups
and Hackathons

We are confident that once you and your colleagues join, you will meet peers that can support your journey and speed up your adoption and quality of reporting. This will help you to make better decisions moving forward, and maybe even some real-life friends.

For more information, please contact your Community Team.
